Github: github.com/AlexKrumins
Profile: alexkrumins.github.io/profile

User-Focused Web Developer with a penchant for solving problems and streamlining solutions. Provides unique perspectives in communicating with customers after years of experience in the service industry. Passionate about approaching challenges and creating real-world applications in response to hypothetical concepts. In short, interested in making things effective and efficient while achieving high standards of quality, great customer service, and satisfaction.

TECHNICAL PROJECTS

Top Task Time Tracker
TOP-TASK.HEROKUAPP.COM || GITHUB.COM/ALEXKRUMINS/TOP_TASK

- An everyday productivity tracker to keep tabs on what tasks you spend too much (or not enough) time on
- Designed and built Front End & Back End based on customer's initial concept as well as their continuous feedback
- Languages & Libraries Used
  - React
  - Node
  - MySQL
  - NPM
  - HTML5
  - CSS
  - Bootstrap
  - Moment.js
  - UUID4
  - Passport

KC Datenight
KC-DATENIGHT.HEROKUAPP.COM || GITHUB.COM/ALEXKRUMINS/PROJECT_2

- After providing a quick survey, this site will recommend plenty of places to take that special someone for a night on the town
- Created Back End logic with scripted AJAX calls to analyze user surveys
- Built Database with local attractions
- Languages & Libraries Used
  - MySQL
  - Handlebars
  - Passport
  - HTML5
  - CSS
  - Bootstrap

Dream Burger Menu
DREAM-BURGER.HEROKUAPP.COM ||
GITHUB.COM/ALEXKRUMINS/SEQUELIZED_BURGER_DREAM

- Create your own menu by hiring a chef and adding their specialty burger to serve
- This was just a fun side-project that helped me fully grasp Database Calls and Conditional Rendering.
- Languages & Libraries Used
  - MySQL
  - Handlebars
